Public Record Document Retrieval and Searches

Public Record Document Retrieval and Searches

You will save time and enjoy the satisfaction of staying on schedule when you use the services of CRR as the solution to your public document retrieval and search needs. In our 20+ years of business, we have established a reliable network of agents throughout the country, as well as our own employees supporting us in Houston and the adjacent counties.

Whether you need one item, have on-going retrieval needs or have a multi-state, multi-jurisdictional search and retrieval project, we are here to serve you with the wide-ranging strength of CRR's experience and know-how.

You will benefit from faster processing times due to our familiarity, creativity and skills to effectively manipulate the data contained within the vast multitude of independent data bases located throughout the country. When the situation demands, we can perform hands-on research in every county or parish, whether it entails searches on an individual in one location or searches involving multiple entities across the state or country. You can trust us with searches involving litigation, UCC, probate, marriage licenses, assumed names, corporate identities, real estate, and miscellaneous records.

Medical Document Retrieval

Medical Document Retrieval

We have diversified our document retrieval department to include medical records. Here is what Mary Broussard of Abraham, Watkins, Nichols, Sorrels, Matthews & Friend had to say about our service to her co-workers:

"I want to recommend **Court Record Research** for medical records ordering. Knowing that we are in a time crunch for our Cox2 cases, their office worked through the weekend to get orders processed, and even delivered a box of records to us on Sunday. **I don't know of any other service that goes that far above and beyond. Their service is timely and their customer service is top-notch.**"

We offer legitimate "flat-rate prices" with no mark-up on pass-through costs. Your orders are submitted to the sources for completion immediately, enabling us to complete some requests in as little as 72 hours. We strive to fulfill your orders as quickly and accurately as possible.

CRR Constables

CRR Constables

Why jeopardize your case by using the constable's office when CRR's process service provides you with more satisfaction and peace of mind? Your case could move along substantially faster by using CRR. Many sheriffs and constables are backlogged, and more difficult serves might not be met due to a lack of care, diligence and dedication.

Just look at the benefits of using **CRR** versus the government:

- **Constables** - No rush service is offered.

- **CRR** - Special coordination requests are welcome.
- **Constables** - No special coordination requests accepted.

- **CRR** - If the initial address proves ineffective, we will re-serve the paper at a reduced rate. If you are unable to provide a new address, we can locate a new address for a minimal research fee.
- **Constables** - You must provide the new address *and* they will charge you the full rate to re-serve.

- **CRR** - We provide convenient email updates as to the status of service upon completion or the third and final unsuccessful attempt.
- **Constables** - You will most likely have to contact them for status.

- **CRR** - We will return a scanned electronic image of the return of service to you via email, and follow-up with the hard copies by regular mail.
